From the Editor by Jack Houser

This year again we have three meetings in November to avoid the parking problems caused by having the Nob Hill Christmas shopping event the same night as our first December meeting. Our speaker on November 2nd is Mark Holm, Photo Editor of the Albuquerque Tribune, speaking on *Journalistic Photography*. There will be a field trip to the Tent Rocks National Monument on the 5th. If you've never been out to this monument, it's spectacular! Here is a picture of some of the formations.

The second of my panoramas tutorials, *Panoramas 2* is now on the ELCC Yahoo web site along with sample files so you can follow along. Log in to the web site; click on *Files*; then on *Useful Documents*. The ELCC October competition results appear at the end of the f/Stop. Happy Thanksgiving.

Thanks a bunch by Bob Barton

Thank you to all of the volunteers who helped make the 2006 New Mexico State Fair Photo Exhibit a success. Your time, efforts and enthusiasm were crucial to the success of the event. The ELCC has provided the labor for all of the tasks involved for a number of years, and if we do not do the jobs, they probably will not be done, and the photo exhibit will be something that we used to enter. Julie Jamison extends her thanks also. She is extremely appreciative of your efforts and participation and has said that if we don't do the job, neither will she.

If any of you wanted to volunteer and just did not get around to it this year, you can have another chance next year. We have a good time meeting new people, visiting with some we know and some we don't know. The time moves quickly most of the time, and there is the satisfaction of doing something for a large number of people. Thank you again for your help.

Steve's Notes by Steve Bonner

I would like to remind all members of our annual Pot Luck dinner to be held at our first meeting in November, Thursday, November 2nd. This has become an annual event, started by my predecessor, Norm Gagne, following a suggestion by Elizabeth Bornholdt. By the way, Norm will be serving the main course this year, as he does every year.

It is a great event, enabling our members to mingle and renew old friendships and, of course, to make new friendships as well. It is not required, but many of our members bring side dishes and desserts. Everything is supplied, right down to the silverware (plastic). So please come, have a great time, and don't forget to bring your entries for November.

Reminder to all: there are three meetings this month, our normal two and the third meeting on November 30th. The third meeting will act as our first meeting in December. Bring your December entries to this meeting. Judging will be at our only meeting in December, on the 21st.

You, the members, responded very well to the request for nominations to assigned categories! Here are the 18 nominations.

November Judge

The November judge is Celestyn Brozek from UNM. This is his first time judging for the ELCC. His biography and one of his photos follow.

I started to take photographs in my teenage years, in the 1960's, in my home country of Poland. At that time, the only commonly available technology was black-and-white photography. I had a darkroom at home and did all the processing myself. Although currently I do only color prints, black-and-white pictures are still my favorites, and I hope to be able to work with this medium again one day.

Currently, I use an SLR camera (Pentax ZX-5N) with interchangeable lenses and custom processing for the prints. However, only very rarely do I adjust the original colors or crop a photo. Nature is my main subject including

Jerry Goffe, is one of the seven artists who is part of the "Bird" show currently being held at the Arts Alliance Gallery, 1100 San Mateo NE., Suite 10. The show opens Friday Oct 27 and will run till Nov. 20. A reception for the artists will be held Nov 3 and for Artscrawl Nov. 17.

everything from a macro picture of an insect or flower, to a sky panorama. I am fascinated with sky, clouds, and sunsets. I love to photograph water reflections. I am particularly sensitive to repetitive or geometric patterns in nature.

I sell my photographs through galleries and art shows. I participated twice in the juried New Mexico Arts and Crafts Fair 2005-2006. One of my photographs was selected for the 13th Annual Fall American Photography Exhibition organized by the Hubbard Museum of the American West in Ruidoso, NM in 2004. Although I love photography, my activities in this field are limited since I have a full-time job as an Associate Professor of Chemistry at the UNM-Valencia Campus with a fair amount of overload. In addition, birding is another great passion of my life. I spend a lot of my free time in search of

birds in New Mexico and occasionally out of the state.
